

MORE CERTIFICATE

CERTIFICADO

EuPC, European Plastics Converters y
ANAIP, la Asociación Española de Industriales de Plásticos,
Certifican que

TRIPLE Q S.L.

está comprometida a favor de la **Economía Circular**
con la integración de **Plástico Reciclado**

EuPC y ANAIP otorgan el sello anual MORE a TRIPLE Q S.L.
MORE 2023

Madrid, 21 de junio 2023

Bernard Merx
General Manager of EuPC

Luis Cedié
Director General de ANAIP

The MORE platform was launched at **European level** in 2019 by EuPC to monitor the use of recycled material by plastics processors.

The companies that are part of this project, 38 of them in Spain, **register annually the recycled material they use** to manufacture their products. This makes it possible to evaluate the results of the efforts made by the plastics industry **to achieve more circular and sustainable business models**. Currently, around 5 million tonnes are recycled annually across Europe. The target, set by the European Commission through the Circular Plastics Alliance, is to incorporate more than 10 million tonnes per year into plastics recycling by 2025.

Thanks to the MORE platform, manufacturers can **record their recycling achievements in a unified European database**.

The MORE label awarded by EuPC European Plastics Converters and ANAIP was awarded to us for the first time in 2020 and is accompanied by a diploma certifying our commitment to the circular economy and our continued determination to make our business more sustainable every day.
